

Diseko Soluciones, S.A. de CV is a company created with the vision to meet the demand for all types of display systems, point of purchase and multi-material solutions for different consumer products based on global manufacturing standards.

We have over 25 years of experience exporting to the US market, the capacity to deliver a high quality product with short lead times.

Our facility of over 400,000 sq. ft. is strategically located in Aguascalientes, Mexico and that provides our customers with timely logistics anywhere in the country and abroad. We constantly invest in top end technology for the production of your products and count with numerous advantages in that area: automatic mesh welding technology, 3D wire and tube bending CNC laser cutting equipment, mig welding robots, powder coating line with a last generation fast color change Nordson paint booth.

We have clients inside and outside our borders, some of them are:

Array Retail Solutions Inc. / Madix Inc. / PFI, LLC / Cornerstone Solutions and more...

Grupo Bimbo / Kraft Foods / Pepsi Bottling Company / Church & Dwight México / Nestlé Waters México/ Quaker State México and many more.

We would like to be a part of your supplier mix and have the opportunity to develop and manufacture your point of purchase needs.

Let us approach you and give you the service your business demands.

Cardboard displays

POP displays manufactured in corrugated material for your temporary point of purchase needs, up to 5 color offset printing and die cutting. We count with last generation AGFA digital plotter for you sampling needs and a team of 10 designers for fast turnaround on design and production.

Metal displays

Display manufactured with automatic meshing welding, bended CNC wire and tube, laser cutting, robotic welding and finished with your choice of powder coating.

Multi-material displays

Displays produced with steel, thermoformed, injection molded and corrugated solutions. We offer serigraphy and lithography printing on laminates, styrene and sheet metal through our strategic alliances within Mexico.
